PROFESSIONAL SUMMARY

Detail-oriented Full Stack & MERN Stack Developer and Computer Science Engineering student with hands-on experience building responsive web applications using React, Node.js, Express, and MongoDB. Proven track record in API development and database structuring through virtual industry internships. Seeking a Software Engineer or Web Developer role to contribute technical skills to scalable web solutions.

EDUCATION

Bachelor of Engineering (B.E.) in Computer Science and Engineering

V.S.B. College of Engineering Technical Campus, Coimbatore, Tamil Nadu | 2023 – Present

□ CGPA: 7.91

Higher Secondary (Class XII) | V.E.T Hr. Sec. School | Score: 83.7%

Secondary School (Class X) | V.E.T Hr. Sec. School | Score: 100%

TECHNICAL SKILLS

- **Languages:** Java, JavaScript (ES6+), HTML5, CSS3
- **Frontend Development:** React.js, Responsive Web Design
- **Backend & Databases:** Node.js, Express.js, MongoDB
- **Developer Tools:** GitHub, VS Code, Vercel

EXPERIENCE

Viruz Verse (Virtual Internship)

MERN Stack Developer Intern

Dec 2025 - Jan 2026

- Engineered full-stack web applications leveraging the MERN stack to deliver scalable software solutions.
- Designed and integrated RESTful APIs using Node.js and Express.js, reducing data retrieval latency by 20% and ensuring secure frontend-backend communication.
- Architected dynamic, responsive user interfaces using React.js and modern JavaScript (ES6+).
- Managed and structured complex databases using MongoDB to ensure efficient data handling and integrity.
- Streamlined full-stack development workflows across multiple projects, utilizing Git/GitHub for version control and efficient deployment.

Full Stack Web Development Intern | Future Interns (Virtual Internship)

Jan 2026 – Feb 2026

- Engineered and deployed production-ready web applications using modern HTML5, CSS3, and JavaScript standards, achieving 100% cross-device accessibility.
- Optimized web application assets and component workflows using modern UI/UX practices, cutting page load times by 15% and boosting cross-browser execution speeds.
- Architected interactive web solutions—including an automated café management platform and a developer portfolio—achieving a 98% usability score in performance testing.
- Diagnosed and remediated critical front-end bugs, optimizing render trees and DOM manipulation to significantly elevate Core Web Vitals and overall user experience.

PROJECTS

Personal Finance & Expense Management System (MERN Stack) | [Live Demo: mern-expense-tracker-eta.vercel.app/](https://mern-expense-tracker-eta.vercel.app/)

- Engineered a full-stack expense tracking application using MongoDB, Express.js, React.js, and Node.js.
- Built a responsive dashboard featuring profit/loss analytics, automated transaction categorization, and interactive financial reporting.

Personal Portfolio Website | [Live Demo: https://selvam2305.github.io/portfolio-website/](https://selvam2305.github.io/portfolio-website/)

- Designed and deployed a personal portfolio website utilizing HTML, CSS, and JavaScript.
- Implemented responsive design principles to ensure seamless cross-device compatibility across desktop and mobile browsers.
- Optimized page performance and user interactions using structured layouts and lightweight UI components.

PATENTS & INNOVATIONS

- **Fraud Detection in Voting System Using Hybrid Biometric Scanner**

Application No: 202541037560 A

Engineered a secure voter authentication framework leveraging hybrid biometric algorithms to eliminate identity fraud risks.

- **Fault Prediction in Computer Using IoT and ML Algorithms**

Application No: 202541129936 A

Designed an IoT and machine learning-based system for early hardware fault prediction, improving system reliability and reducing downtime.

CERTIFICATIONS

- **NPTEL Certification:** Big Data Computing
- **Java Programming:** Great Learning Academy
- **Front End Development (HTML):** Great Learning Academy
- **MERN Stack Internship:** Viruz Verse Solution
- **Full Stack Web Development Internship:** Future Interns
